## PROFILE

Creative front-end developer with a background in Mech Eng., and a passion for building engaging, user-friendly digital experiences. While working in the insurance industry, I collaborated with the Tech Team to develop a demand tracker, an experience that fueled my transition into software development.

## SKILLS

**Front-End:** HTML, CSS/SCSS, JavaScript, Responsive Web Design (Mobile-First), REST APIs, React.js, DOM Manipulation, Flexbox, Debugging.

**Back-End:** Node.js, Express.js, Web APIs.

**Databases:** MySQL

**Version Control:** Git Bash, GitHub.

**Tools & Environment:** Terminal, VS Code, Chrome Dev Tools.

**Productivity & Business Tools:** MS Office Suite, Adobe Acrobat (PDF Editing), Data Entry & Database Management.

## PROJECTS

### Founder and Full-Stack Developer | EthnicBite

MAR 2025, BRAINSTATION CAPSTONE

- Designed and developed a full-stack web app prototype, connecting users with home chefs offering authentic cultural meals.

### Front-End Developer | OneVoice

MAR 2025, BRAINSTATION x MICROSOFT HACKATHON

- Built the frontend using React and WebSockets to stream live audio and display instant AI-powered transcriptions in real-time.

## EDUCATION

### BrainStation | Diploma, Software Engineering

JAN 2025 - APR 2025, TORONTO, ON

### Heriot Watt University | Bachelor of Engineering, Mechanical

JAN 2010 - JUNE 2015, DUBAI, U.A.E

## EXPERIENCE

### Senior Underwriting Technician | AIG

SEP 2023 - NOV 2024, TORONTO, ON

- Streamlined the UW process by preparing quotes, binders, and reinsurance documents allowing underwriters to focus on strategic risk decisions and client management.
- Demonstrated strong organizational and problem-solving skills while managing high volumes of submissions under tight deadlines.

### Intermediate Account Analyst | Aviva

AUG 2021 - SEP 2023, MARKHAM, ON

- Improved team efficiency by developing a color-coded email labeling system to streamline the shared mailbox workflow.
- Delivered clear, data-driven reports for FLM using creative visualization techniques to support decision-making.
- Resolved unidentified payments by applying pattern recognition and analytical skills to match records accurately, enhancing client support.

### Technical Sales Representative | LeakDtech

JUN 2016 - OCT 2016, DUBAI, U.A.E

- Secured one of LeakDtech's biggest clients (Majid Al Futtaim), contributing to a 15% increase in sales targets during the period.
- Engaged with senior management across various organizations to pitch LeakDtech's services, leveraging strong communication and persuasion skills to build client relationships and drive sales.
